## Press release

### **AEROBAL Elects New President and Secretary General at General Assembly Meeting**

AEROBAL, the International Organisation of Aluminium Aerosol Container Manufacturers, is pleased to announce the election of its new leadership during the General Assembly meeting held on September 10, 2024.

Robert Huffman, President of Trivium Packaging's Americas and Global Aerosol & Beverage businesses, has been elected as the new President of AEROBAL. Huffman succeeds Wan Tsang Lin of EUROASIA Packaging, who has served the organization with dedication since June 2022. Huffman will lead AEROBAL for the next two years, bringing his extensive industrial experience and leadership to the organisation.

"I am delighted to take on the role of President of AEROBAL at such a pivotal time for our industry," said Robert Huffman. "With the increasing focus on sustainability and innovation, I look forward to working with our members to advance the use of aluminum aerosol containers and ensure that our industry continues to thrive."

In addition to the presidential election, Seifeldin Raslan Mohamed has been elected as the new Secretary General of AEROBAL. He steps into the role following the departure of Gregor Spengler, who has stepped down after 30 years of dedicated service to the organisation.

"I am excited to join AEROBAL in this capacity and to continue building on the strong foundation laid by Gregor Spengler," said Seifeldin Raslan Mohamed. "I look forward to collaborating with our members to address the challenges and opportunities facing the aluminum aerosol industry."

Gregor Spengler, reflecting on his tenure, remarked, "It has been a privilege to serve as Secretary General of AEROBAL for so many years. I am convinced that Seifeldin Raslan Mohamed will lead the organisation successfully into a bright future, and I wish him and the new President every success."

AEROBAL members extend their deepest gratitude to Gregor Spengler for his outstanding contributions to the organization and the aluminum aerosol industry. With this new leadership, AEROBAL is poised to continue its mission of promoting the global aluminum aerosol container industry to the benefit of AEROBAL members.
